- It involves the application of a highly sensitive lipo to dissolve the fat deposits situated in the upper layers of the human skin. The energy emanating from the lipo breaks up the fat cells to produce an oily material.
- Safe, minimally-invasive procedure, it uses low levels of visible red laser light to create a safe and painless stimulation is of the normal chemical pathways to free up reserved energy resources stored in fat.it is safe and effective.
- Treat All Skin Types, Treat All Body Parts such as neck, breasts, back, knees, hips, thighs, bottom and arms.
- Accelerate tissue coagulation to avoid muscle slack after Body shaping. No pain ,no side-effects.

AND INCLUDES Whole Body Vibration!

Accelerate Weight Loss and Cellulite reduction in 10 Minutes!

Whole Body Vibration (WBV) offers a low impact way to increase strength, flexibility, & rejuvenate your body increasing metabolism. WBV causes the muscles to contraction at the same rate that the platform is vibrating. The mechanical stimulus produces a stretch reflex in 100% of your muscles. Your muscles react to the vibration by contracting and relaxing.

WBV training was used in the 1960s by the Russian space program to help cosmonauts recover more quickly from muscle atrophy & Olympic Teams.
